

Thermal Printing Solutions to Increase Efficiency and Reduce Costs in Government Applications

Records Administration and Validation Printing

Thermal printing solutions to manage and validate government records.

- DMV
- Tax collection
- Utility companies
- Emissions

State and Local Governments

CognitiveTPG's identification and security printing solutions allow for more effective resource management at all levels.

- Evidence labeling
- Field inspection labels
- Tamper proof media for parks and hunting and fishing licenses

Asset and Material Tracking

Long lasting, durable barcode labels for tracking critical assets of all types.

- Locate mission critical supplies
- Track calibration information for expensive equipment
- Reduce equipment maintenance costs
- Identify department and service records

Printer and Label Solutions for Government

Built to last... designed to make a difference.

Thermal Barcode Desktop Label Printers

- Rugged and reliable printers with a metal frame construction to perform in challenging environments
- Industry standard communication interfaces, including Serial, Ethernet (internal), Parallel, USB A (host), and USB B (device)
- Small footprint and standalone and network capability for added flexibility
- Supports multiple programming languages
- Ideal for evidence labeling and asset tracking

Point of Sale Printers

- Multifunctional thermal and impact printers for receipt printing, form printing, and check endorsements
- Industry leading warranty (4 years on A799)
- ReceiptWare™ marketing software allows you to turn every receipt into a promotional and customer loyalty tool
- Ideal for revenue collection offices, registry of deeds, and other government offices

Supplies and Labels

CognitiveTPG manufactures standard labels as well as custom labels for multiple government applications.

- Wide range of label sizes and materials
- Small/curved labels
