

# Printing Solutions for the Pizza and Fast Food Industry...A Little Slice of Heaven!

Time is a critical aspect in the operation of a successful fast food and pizza delivery enterprise. With guaranteed delivery times of 30 minutes or less and orders coming from multiple sources, your business requires efficient, effective and automated procedures to successfully process orders quickly and accurately.

## CognitiveTPG printers are the printers of choice for Pizzerias and Fast Food Operations:

- Our label printers are some of the most robust and durable printers on the market, easily withstanding the messy pizzeria environment. Flour? Sauce? Oil? Dough? No problem! Our printers are built to endure whatever your preppers throw at them!
- Best-in-class first label out speed and clear print improve efficiency and reduce delivery errors
- Audible indicator alerts staff when an order comes through online so no time is wasted
- Reliable receipt printers are not only fast... they're also capable of promoting your business with custom logos, messages, and coupons

"I am thrilled with the savings that CognitiveTPG printers generate. We've already noticed increased order accuracy and better inventory control."

Dale "The Pie Man" Roberts  
Owner of Blackjack Pizza in Boulder, Colorado

# CognitiveTPG's Hospitality Printer Product Line

## A798 & A799II Receipt Printers

True workhorse receipt printers with industry leading print speed, knifelife, and warranty. Available with a spill proof cover to protect against accidental spills.

## ReceiptWare™ Software

A simple, flexible, and free marketing software tool with features to deliver your promotional or customer loyalty message on the receipt.

## M320 Mobile Printers—Bluetooth or 802.11 n/g

Lightweight, ergonomical yet ruggedly designed mobile printer that prints labels or receipts. Equip your team with a mobile solution for printing receipts or accurately labeling the inventory in the back of the store.

## C Series & DLXi Label Printers

Known as the printer you can stand-on, our label printers offer high performance (up to 8 ips print speed), a compact footprint, multiple interfaces for greater flexibility, and exceptional ruggedness.

## Linerless Label Printer

An eco-friendly receipt printing option for receipts that need to "stick" or be repositioned. Perfect for carry out applications.
