

CognitiveTPG

Rugged and Reliable Thermal Printing Solutions for Retail Applications

CognitiveTPG is ready to help you conquer the challenging printing requirements of the multichannel retail world with thermal POS, Label, and Mobile printers designed to provide front-of-store, back-of-store, mobile, and online/ecommerce retail application printing solutions.

Applications for the Retail Environment

- Receipt printing with promotional and store branding
- Print on-demand labels for shipping, receiving, and return to vendor
- Print coupons and forms and validate checks using hybrid printers
- Print shelf tags and inventory merchandise
- Product identification and price labeling

The Possibilities are Endless!

Color matching label information for paint stores

Fast, reliable receipt printing for grocery and convenience store applications

Merchandise ticketing and repricing for clothing and home goods

And so much more! From high fashion to rugged retail, CognitiveTPG has a solution to fit every retail application!

CognitiveTPG builds reliable, rugged, and durable printers that excel even in the most challenging environments.

A798, A799, and A799II Receipt Printers

True workhorse receipt printers with industry leading reliability, speed, and performance.
