

A Versatile and Responsive Solution To All Your Healthcare Printing Needs

Admissions and Registration

Label Solutions for Wristbands and File Folders.

Accurate patient ID is a critical step in patient safety. CognitiveTPG's wristband printers enable healthcare professional to:

- Print patient information with 2D and linear barcodes
- Add text and graphics
- Print on-demand for admissions, patient files and lab reports

Pharmacy

Prescription Label Solutions for Hospital, Retail, and Long-Term Care. CognitiveTPG's CRx printer provides optimal workflow, cost, and performance for pharmacy printing applications.

- Compact footprint that fits easily into small work spaces
- Complete PCL 5 emulation for easy integration into legacy laser applications
- High speed, high quality script printing with low maintenance
- Network-ready and USB A port to support input devices such as scanners, keyboards, and numeric keypads for a stand-alone solution

Asset Management

Label Solutions for Tracking Hospital and Lab Equipment.

CognitiveTPG's thermal printing solutions provide long lasting, durable barcode labels for tracking equipment.

- Track equipment calibration information
- Reduce equipment maintenance costs
- Identify department, service records

Clinical Laboratories

Label Solutions for Specimen, Vials, Blood Collection, Tissue, and Slides. Ensure accuracy in laboratory collection by offering a labeling solution at the point of care.

- Compact printer that fits on mobile cart or small countertops
- High resolution (300 dpi) smudge-proof labels for sharp quality and accurate read rates
- Durable metal mechanism that withstands harsh environments
- Easy-to-use media indexing to print on a wide variety of label sizes and formats

The C Series, CRx, and Advantage DLX CognitiveTPG's Healthcare Printer Product Line

C Series Printers

The performance of a mid-range barcode label printer at half the price and a third of the size.

- Compact footprint
- Industrial capabilities
- 8 ips (Cxi) and 6 ips (Ci)
- LCD menu driven interface (Cxi)
- Large roll capacity

CRx Printers

A compact printing solution for the retail pharmacies that outperforms all other laser printing solutions for prescription labels.

- Complete PCL 5 compatibility for easy integration into legacy systems (300 dpi model only)
- High-speed and high-quality script printing with little downtime and no printer jams
- No adhesive ooze and costly maintenance
- Quiet operation
- Energy efficient printing saves money, reduces waste, and helps protect the environment
- Network-ready

Advantage DLX Printers

Application critical industrial thermal label printer.

- USB Standard
- Print speeds up to 5 ips
- Fast first label out speeds
- Two language emulations
- Durable all metal mechanism
