SOLUTIONS INC.

Take A Closer **Look!**

*Maintain a low-profile and a low price point with small footprint, sleek looking e+Solutions printers.*

## Network Enabled Desktop Solutions Desktop series

### **e+Solutions™** ..... **inControl™**

Innovative Cognitive printers lead the pack with network and mobile network ready e+Solutions. For varying size network installations, where footprint and price are key factors, e+ Solutions offer the most comprehensive internal Ethernet ports in the industry. For applications from warehouses to hospitals, e+Solutions make network printing fast and easy.

*Just plug in and print*

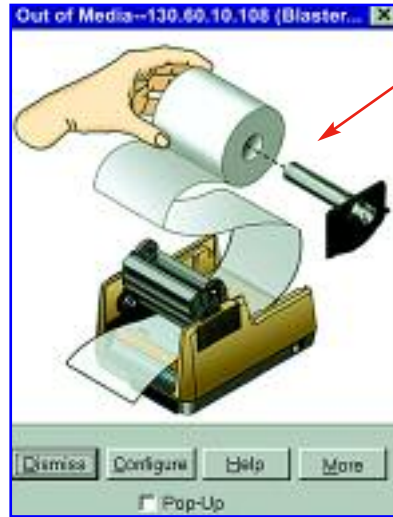

Designed for network administrators by network administrators, *inControl* presents critical network information in an intuitive graphical interface. Only *inControl* has the ability to create printer profiles, so adding a new printer to the network is as easy as plugging in the printer and clicking a few buttons. Upload firmware to every printer on the LAN, WAN, or Mobile Network. *inControl* puts the network administrator in control.

# Network Enabled Desktop Solutions

## inControl™

- Intuitive Enterprise Console provides all e+Solutions printer information in one screen, with filter and sort features.
- Passive, active, or email printer alerts can be sent to any inControl client on the LAN.
- Database reports provide detailed information about any or all e+Solution printers.

inControl Client displays error information and a diagram explaining how to correct the situation.
